BIOGRAPHY

by Joseph Hugue: Auguste Poitevin

I was born at Aix, on Provence on May 30, 1819. I left Aix for the City of Aubagne in 1826, because my father was appointed Chief of Police there. It as in the latter city that I made my first Communion, on June 2,1832: 13 il left Aubagne for the School of Medicine of Marseille on November 5020,1835. I qualified as Health Officer on November 23,18337 57t was in that city that I had the honor of being admitted as a student interne at the time of the capture of Constantine and that being placed in military service I was able to be of some use to our brave Zouaves and

I was also greatly flattered to be under Dr. Sue, uncle of the celebrated writer of Dr. Pinel, former surgeon of the Moscow army, and finally to follow a course of Professor l'Allemand of Montpelier. It was while pursuing my medical studies that I obtained my degree of Bachelor of Arts, 1837 - a diploma which I never received because my work as Health Officer absorbed me completely as well as my plans to go to Toulon. It was necessary for me to go to the Royal Lyceum two or three times. I did not do it. I left for Toulon in January 1839, passed my examinations as Navy Surgeon at the end of April received my appointment and the order to embark on board a vessel carrying 80 guns, the "Jupiter", commandant Eugene Davicon(Davison) May1, 1339, on the king's saints' day.

We set sail from the port of Toulon, the Prince of Joinville was on board, on the 23rd of May, to rally the squadron of the East, under

orders of Admiral Lallande, after a stay of several weeks in the Ourlac Islands, we movillom at Smyrna on July 25th.

A few months later the rince of Joinville left our ship to go abourd the "Belle-Poule" which had been sent to him in order that he might take command of it.

The ship "LeJupiter" returned to Toulon after an absence of 9 months. We embarked again, for Athens, where we movillons on September 10,1840. I visited in turn the Greek city and its monuments, Lalamine, Argos, Nauplie de Romania, Teriedos, Imbros, Chio the Dardanelles, Sonothrace, Syra. We returned to Toulon by way of the Straits of Messena; it was two o'clock in the afternoon by the city clock. Before me spreads the magnificent panorama of Mount Aetha of Catane, near the coast of Sicily, while on the other side rises the celebrated promontary on which Reggio sets forms the most surprising contrast. After having passed Carybde and Scylla we arrived at 9 ofclock at night before the Volcano Stromboli which throws out flames and spreads its lava in a river of fire to a thousand points on the mountain.

We crossed again the Straits of Bonifacio, then anchored before Ajacio (corvette taken at Toulon)

I quit the "Jupiter" to embark on the 24 gun corvette, "La Bullante" captain Regnard, on Oct. 10,1841. We were destined for the station of the Gulf of Mexico; after a 55 day crossing we arrived at Vera Cruz in the early part of Wacember.

During this long station of more than 3 years we visited in turn La Havane, Pensacola, Campeche, Tabasco, Galveston, Tampico. The Steamboat ,Commandant Laurencum arrives in the port of Pensacola from Havana, with yellow fever on board. I was sent to it to bring relief. 237 Aug. 12, 1343. I was elf am stricken with this terrible disease, the day after my arrival.

page 2 continued

I returned on board my corvette on Sept.24th of the same year, the epidemic being over, having lost 23 men.

epidemic being over, having lost 23 men.
Captain Regnard and Laurencum, in the report to the Minister of Navy, request for me the medal of the Legion of Honor. have never obtained it.

On March 20,1844, I received the order to embark on board the brig of war the Mercury, Capt. Dubut to replace the surgeon major left ill in Havana.iI remained on this brig 3 months. then returned to my ship.

In a visit which we made to Compheche, we found the city besieged by Sunta Anna's troupes. I received the order to see the Consul of France Mr. Larsene de Villeeveque, with about 30 men to protect them during the saege. This siege lasted two months.

On June 16,1844 I had the misfortune to lose one of my most intimate companion, in arms, the ship's ensign Roger Dupre, who died of yellow fever at Sacrificio, andwas buried in Green Island.

We leave for Brest November 9.1844.

I forgot the shipwreck corp et biens of the unfortunate brig Le Danois, Capt. Vignaud, on Sept. 4,1842.

At aris Jan.10,1845

Aubagne Jan. 28th

Left Marseilles for New Trieans on board the 3 mast American Augusta,
Capt. Isely, Sept. 1,1845 - at Pensacola the

Married to Mademoiselle Merced Palmes on the 24th, 1845

Left Pensacola for Mobile Oct.8,1847.

This letter to hence Then we Think Gleches or level some books & wrote it from movey + I sent kept a certificate July/29, 1981

2885 Blackshear Avenue
Pensacola, Florida 32503

Dear Rita,

You were so kind to let me use your genealogical material and also your daughters pictures.

Pensacola had a Galvez Celebration in May in which they recognized all families in Pensacola before Galvez and those who came with Galvez.

We had eighteen families recognized. Of this there were six families that received certificates because of my work and books. I have given up a year of research to work with this commission --- so I hope I can get back to my research.

Enclosed is a photo of the medallion and certificares that were given during the celebration.

I can document your daughter for three families: Suarez, Rodriguez, and Gonzalez. We were not able to get Villar documented but I got one on my grandmother's side.

The Certificates were paid for from state funds during the celebration---but it is now out of commission. They gave the Certificates to the Historical Society and they are charging \$2.00 each plus \$1.00 postage for approving the documentation and preparing the certificates.

I did not have time to write you earlier about this --- but wanted you to know about it. I documented Eugene Kee and he got a medallion and certificate during the celebration.

I can document any of the Flechas that want one, also I can document the Poitevins and Krebs for the three named plus the family of Palmes.

They can even be made for your grandchildren or any of the bloodline.

Will you please tell your sister and the rest of the family over there about this.

You can write me and enclose a check plus 4% sales tax made out to the Pensacola Historical Society and let me know what family name or names you want and I will document them for your certificates.

I would appreciate it if you would send my photo back as it is the only one I have --- and a friend took it.

As soon as the supply of Certificates are gone---we will not have any more printed---so if you want any, let me hear from you soon.

I hope you are having a good summer and that all of your family is okay.

Sincerely,

Mrs. D. &. Bowman, Jr.

2885 Blackshear Avenue Pensacola, Florida 32503 October 27, 1980

Mrs. J. E. Krebs 4102 Willow Pascagoula, MS 39567

Dear Rita,

This is not a formal letter, but I headed it with you name as I have several notes to write this morning and I did not want them to get mixed up.

Well, I am sorry that I did not make myself clear to Helena and that I did not get all of the information that she was getting for me, but after a while, you get so tired of waiting, that you just have to get rid of it. I was really about a month late in getting it to the printer and he was about a month late getting it back to me. In fact he told me that it would be three to four weeks and it was six weeks. I was kinda provoked with him.

I guess you are wondering what happened to the picturés which I had of yours, well the printer brought the books, but not the manuscript and pictures. He lived in Foley, Alabama, so it is not the same as if he lived here in town, or rather his shop was here. He told me that he would mail it to me, but I never got it, so, one day, I just drove over there and got it from him. So that is why I am late with the pictures. Or rather, returning them to you.

Enclosed are all of the pictures that I have kept of yours. I surely do appreciate your daughter letting me use them, and also for your letting me use all of your good work on the Pascagoula bunch.

I hope that you enjoyed the book, and if you know of anyone that you think might want a copy, please let them know, as when the copies that I have are gone, that will be it, as, I will not reprint, as printing is too costly.

It's been great, talking with you through our letters. I hope someday, to get over there and meet you and Helena. Please thank Helena for me, and tell her that I am sorry that I did get the information that she was collecting for me.

Jimmy Buffett was here in Pensacola this past weekend. Eugene Kee told me that he was kin to you all.

There is someone here in Pensacola working on the Palmes background and if I hear anything that you would like, I'll will send it on to you.

Let me hear from you sometime.

Sincerely,

Dicy V. Bowman

UNITED STATES NATIONAL MUSEUM

BULLETIN 219

WASHINGTON, D.C.

SMITHSONIAN INSTITUTION

1960

* section shows a rising floor, rather hard bilge, and an upright topside. The bow is rather high and bold.

Scale of the model is % inch to the foot, for a boat measuring about 37 feet 4 inches moulded length at gunwale, 9 feet moulded beam, and about 3 feet draft at skeg.

Given by Anson Holley, shipbuilder, Biloxi, Mississippi.

BILOXI SHRIMP BOAT, 1920-22 Builder's Half-Model, usnm 311233

A launch for the shrimp fishery was built from this model at Biloxi, Mississippi, in 1920-22 by Henry Brasher

The half-model shows a round-bottomed launch with its greatest depth well forward and having a sharp entrance and rather long and flat run, a straight upright stem rabbet, a vertical square stern with a broad transom, a cambered keel rabbet, to which a skeg is intended to be fitted aft, and little sheer. The midsection shows a slightly rising floor, hard bilge, and upright topside.

Scale of the model is ¾ inch to the foot, to produce a launch about 34 feet 2 inches moulded length at gunwale, 9 feet 8 inches moulded beam, and drawing about 3 feet at skeg.

Given by Henry Brasher, shipbuilder, Biloxi, Mississippi.

PASCAGOULA SHRIMP BOAT, 1925 Builder's Half-Model, usnm 311248

Lucille

The shrimp boat Lucille was built from this model at Pascagoula, Mississippi, in 1925 by Portevin Brothers. She was a gasoline-engine powered launch, with the cuddy in a small trunk cabin.

The half-model shows a launch-type hull having a wide square stern, a long run, a short sharp entrance, an upright curved stein, and a raking flat transom. The midsection shows a rising floor with a rather slack round bilge.

Scale of the model is ¾ inch to the foot; the launch was 38 feet long, 12 feet beam, and about 4 feet moulded depth.

Given by Portevin Brothers, boatbuilders, Pascagoula, Mississippi.

TEXAS COAST FISHING LAUNCH, about 1928-30 Builder's Half-Model, usnm 311251

A fishing launch was to be built from this model at Palacios, Texas, by Rowland Hicks about 1928-30, but was not laid down.

The half-model shows a launch-type hull to be fitted with skeg and straight shoe with some drag; the keel rabbet is straight forward and sweeps up aft to a fantail stern, the stem is nearly straight and upright, and the sheer is quite straight. The midsection shows a rising floor, slack round bilge, and flaring topsides. The entrance is sharp and the run rather full.

The model is on the scale of % inch to the foot, to represent a launch 38 feet moulded length at gunwale, 12 feet moulded beam, and about 6 feet depth of side.

Given by Rowland Hicks, boatbuilder, Palacios, Texas.

MOTOR FISHING BOAT, 1929 Builder's Half-Model, USNM 311251

This model is of a design for a fishing vessel proposed by Rowland Hicks, of Palacios, Texas, but never built.

The half-model shows a very full-ended and burdensome motor vessel having a fantail stern, straight sheer, keel rabbet straight forward and curved up aft to the stern (a small skeg is shown), stem nearly straight and upright, entrance short and full, as is the run. The midsection shows a rounding and rising floor, a very slack bilge, and a flaring topside. The greatest beam is forward of midlength.

Scale of the model is ¼ inch to the foot, for a vessel about 53 feet moulded length on deck, 21 feet moulded beam, and about 7 feet moulded depth.

Given by Rowland Hicks, boatbuilder, Palacios, Texas.

BILOXI TRAWL BOAT, 1930 Builder's Half-Model, USNM 311229

From this model a trawl boat was built in 1930 at Biloxi, Mississippi, by Jack Covacovich. Altogether, four boats were built from it.

The half-model is for a launch having an upright stem rabbet, upright flat transom, small sheer, and the keel rabbet straight forward but rising aft to the bottom of the transom and intended to be fitted with a skeg. The entrance is short but sharp, the run long and flat, the stern is wide, the greatest beam is well forward of midlength, and the midsection is formed with a rising floor, slack rounded bilge, and an upright topside.

Scale of the model is ½ inch to the foot, for a vessel 33 feet 3 inches moulded length, 10 feet 4 inches moulded beam, and about 5 feet moulded depth.

Given by Jack Covacovich, shipbuilder, Biloxi, Mississippi.

ACHT AND COUNTRY CLUB HATEST MOVE MENT IN PASCAGOULA

Organization of a yacht club to combine features of a country club is the latest thing in Pascagouls.

During the summer much interest was shown in boat racing, and several Pascagouls boats salled in regatas of Gulf Cost, yacht, clubs, and won prizes. Enthusiasm in the sport has increased, and aundreds of persons witness races each week from Pascagouls beach.

A meeting will be held Saturday night by a number of men who are interested in capitalizing the interest. At the meeting plans for forming a yacht and country club to be located on the seashore will be discussed.

discussed.

TRAIN KILLS MAN AT PECAN STATION.

John Dye, aged 50, was accidentally killed last Saturday morning at the Pecan railroad station, by the southbound Pan-American train. It is said that Mr. Dye was slightly deaf and supposed that he was walk

deaf and supposed that he was walking along the track and did not hear the train approaching. He had been engaged in loading cross ties at the station, and was on his way to work. He was brought to Pascagoula on train No. 9, but died before arriving. Funeral services were held from the family home near Kreole, and buriel was in the Orange Grove cemetery, the Rev. L. I. Thompson, conducting the services. Mr. Dye was a laborer. He is survived by his wife and two children.

PROMINENT VETERAN OFFICIALS VISIT HERE

Major A. J. Dekker of Washing ton, D. C., whose business is to look after vocational training schools for disabled soldiers, under the Veterans Bureau and F. L. Tibbetts, superintendent of a vocational school in San Antonio, Texas, were here Wednes-day to confer with Dr. Isham Kim-bell, superintendent of Pascagoula Training Center Training Center.

Major Dekker praised the Pascagoula school very highly and said it
was a model after which other
schools were patterned. He recently
spent two weeks in inspecting the
school and reported it of superior
merit both as to equipment and
teaching staff.

POITEVIN BROS. YARD IS BUSY ON NEW CRAFT

Passenger Boat Being Overhauled at Gulf Shipyard for Ferry Service.

(From Chronicle-Star.)

At Poitevin Brothers shipyard on the river front twelve men are working full time, and a barge 80x28 feet and 7 feet in depth, will be completed in about thirty days and will be turned over to the owner. This yard presents a scene of much activity, with work also progressing on two small schooners. One is 65 feet and will be used in the oyster trade at Biloxi, while the other is 46 feet and is designed as an auxiliary fishing boat. ary fishing boat.

Launched Barge.

The Gulf Ship Company on Thursday launched the Colle No. 8, a barge 105 feet long by 31½ feet beam. This barge has been under construction for some time, and has kept a large force of ship carpenters busy at the yard. The barge was built for sale on the market, there being a good demand at this time.

The Danhue formetly a passenger

being a good demand at this time.

The Daphne, formerly a passenger boat in service at Mobile, is at the Gulf Ship Company's yard to be overhauled and remodeled for a ferry moat to be placed in service between Chef Menteur and Logtown on the Pearl river. This craft is owned by Biloxi people and will be used for conveying automobiles across this water link in the Old Spanish Trail.

The two Laura, barge Colle No. 4

The tug Laura, barge Colle No. 4 and schooner Delta are undergoing general overhauling and repairs at the Gulf Ship Company's yard.

hope that the "Power which has made preserved us a nation" will confound an and vindictive senator in his effort to ed the nation's destiny to pay back an obvical score.

one sure and reliable service that lets men know that they are not forgotten, that what they do is important.

addition to this, the Red Cross carries s program of famine and disaster relief ouble-areas all over the world, includthose areas in our own country, as we in Mississippi, who have suffered so y disasterous floods, have good reason member.

let us remember also that the Red Cross it out of business because the war is over. let us give generously to raise the bud-

e read by the papers where Rep. Harold. itsen and his Republican cohorts are deained to cut income taxes 20 percent in brackets. That mean a fellow making 00 a year, with a family of live, will save at enough from this 20 percent cut to buy ther school suit for junior. The fellow made \$200,000 a year out of the war will saved enough to buy a yacht. We say cut es by raising the tax exemption \$500 for. h citizen. That will distribute tax relief he proportion that it is needed.

have a close watch these days, Greet" meeting!

The Poitevin brothers, Elwood and Eugene, who launched their first boat in 1906, have rounded their fortieth milestone and now in 1947 are entering their fifth decade in the boat business. They are perhaps the oldest local enterprise which has been doing business under the same name. If there are other companies or partnerships in the Pascagoula-Moss Point area who have been doing business uninterruptedly for lorty years or longer we should like to hear of them, for from time to time during the coming year we plan to write columns about the ex-periences and memories of older Jackson county business men. The Poitevin brothers were

scarcely more than buys when they set up their first ways along about 1905 and started in boat-building for them-selves. They had put in an apprenticeship in George Thompyards on the river. ways were set up adjoining his

This week we not down in the back room of their store and talked for a long time to Mr. Gode side Mr. Blwood about the did Mr. Blwood about the line of the did Mr. Blwood about the long the lon

come back clearly into focus. Elwood rummaged through old papers in the safe brought out a fine collection of old photographs, faded but still clear, of luggers, schooners and barges that were made in lo-cal boatyards in years gone by. The years rolled away, and one could hear the vanish ed saws and hammers of los ego, and see the old sailing ships still on the river.

The first boat they launched

after forming the partnership was a 32-foot launch, christened the "May" because it was launched in May of 1906. She was powered with what in those days was considered a fine engine—a one-cylinder, six horsepower Miami. Today sich a boat would be powered with a twenty or twenty-five horse-

or twenty or twenty-nye horse-ble or make most vivid mem-verteasts the storm of Sept. 5. 1996, which almost wiped Erem-tout in filett first year as part-hers. Their ways were damag-od and their first boat all but edianii-their first boat all bit-maini: They point to an old pic-taise of the George Thompson ways and describe the damage that was done to it. One large ting was blown from the ways and another almost float-ed away by the high tide. "I. think the 1806 storm was the worst blow that ever hit

it in the second

here—worse than 1916," said Mr. Elwood. "The storm-tide ran seven or eight feet high and covered the trolley tracks in town Boatvards were smashed and some of the finest timber that was still left in these parts was blown down. I think that this was the be-ginning of the end of the great eriod of the lumber business

He pointed to a tall pine in the old photograph of Thomp-son's shippard. "I was stand-ing under that tree during part of the hurricane," he said "The force of the wind was hard to believe, Big planks were fly-ing around in the air like straw. Pine cones camer shooting out of those times like buckshot."

The next spring the brother's spent some weeks with their launch towing the storm-shat-tered timber down the river to the old Farnsworth log-boom. By this time most of the sap layers of the wood had to rot but the heart pine was still prime for lumber. But only a part of the timber could be salvaged, and a number of mills never recovered from this blow.

"Its hard " rathe vounger generation to appreciate Pascagoula was like in the old tan, and there were boats on the river from ports all over the world. There were schooners, barks, brigs—every rig abows so that the timber could ship, and boats salled out of here, some of them loaded at most to the most be the sold beams of heart pine that prob-

ably went into buildings in cities all over the world."

Some of their old photographs show these old sailing ships at moorings in the river. Pancagoula has quite a different look in these pictures— more like the movie versions of old waterfronts of the last century in the days of "wood-en ships and iron men."

in 1918 the brothers moved in their present site at the end iff Lake swente. In their for-rity wests of boatbuilding they have turned out everything from skiffs to 100-foot barges, and form Billys sphonours. from skirts to 100-1000 barges, and from Biloxi schooners to catboats. Their largest sailing boats were two 72-100t schoon-ers, the Missala and the Miss Solumbia. One of the best beats over built in the vard, beats ever built in the vard, they saw, was a 54-foot cruiser, called the "Silver Spray." built for Clyde Bryant. In addition the beats they have sunch-ed, they have caulked and re-paired, "figured and remodeled a good many of the boats on the fiver, and many which store

a good many of the boats on the fiver, and many which now man't in eabler ports.

About 1926 they set up a dash of absent manufacturing company and turned out thousands in dosens over the next years. The business was sald eventually to the Annual many in 1946. imel-True Company. In 1946

the factory caught fire in the paint room and burned up with total loss.

The Date of Country work on the local Peet of luggers, work boats and pleasure craft. But the essential atmosphere of their business has not changed since they started out forty years ago. Manufactur-ing methods have changed in a hundred other fields. The big Ingalls yards have turned out a total tonnage equal to literally thousands of times all the boat tonnage produced on Pascagoula-river since the dawn of time. But, this only adds to the authentic and somehow the authentic and somehow mostalgic atmosphere which still clings to a small river boatward. Engines may change and grow more powerful with the years, but the hull work—the making of ribs and brachts and brachts. -the making of ribs and braces, the dressing of edges and the water-proofing of seams-is essentially—the same monity was thousands of years ago. When old Nosh made his Ask before the flood, he did the kind of work that goes on to-day in the small boatvaria like the Poitevins, And eth Ulysse the adventions Greak who the Poltevins, And edd Ulysses, the adventurous Greek who got blown about the Mediterranean for 20 years by contrary winds and tides to an effort to return to Greek from Troy, finally miss have drawn his battered ship into the same sort of wooden ways, and begun the same sort of repairs that one can see going on today in the Poitevin yards.

State stops

JACKSON, Miss. (AP) Tennessee hospital officials want to meet with Gov. Bill Allain after they discovered that Mississippi will no longer pay a portion of the health care costs of indigent Mississippi patients at Tennessee hospitals.

Officials have called the cuts irresponsible" and said that it could eliminate medical care forthousands of poor northern Mississippians.

The Regional Medical Center at Memphis was told Friday that Mississippi and Arkansas no longer can reimburse the center for the cost.

Mississippi officials reminded hospital administrators that the Mississippi Legislature had abolished the State Hospital Commission and could not pay

for treatment of Mississippi residents as of April 30.

The decision by Mississippi legislators to discontinue the reimbursement program affects Regional Medical Center, the Le Bonheur Children's Medical Center and Baptist Memorial Hospital. The three hospitals annually received payments from Mississippi's \$3 million. fund.

"This is totally irresponsible and reprehensible," said Jim Rout, chairman of the Shelby Cmunty (Tenn.) Commission. " am amazed that the leadership ... can think along those lines. It is reprehensible that they expect us to take care of their indigents who cross the river or the_ border.'

sheriff buried

HOLLY SPRINGS, Miss. Funeral services were held Saturday for Marshall County Sheriff Osborne Bell, who was killed Wednesday morning while he and a sheriff's deputy were arresting a man and woman on drug charges.

Meanwhile, an autopsy report released Friday showed Bell, the first black sheriff in Marshall County, died when a bullet cut into a major artery in his neck.

Authorities said that state medical examiner Thomas Bennett had ruled that Bell died of a gunshot wound to the neck. State Highway patrol in-

vestigator Kenny Dickerson said the size of the wound "was consistent" with a 22-caliber

Authorities believe the suspect who shot Bell during his arrest on Wednesdaymorning fired once from a hidden 22-caliber pistol about as long as a finger.

Pot starts fire

A pot left unattended on the stove was reported as the cause of a fire that extensively damaged a house at 4843 Jackson Ave. in Moss Point Saturday.

Spokesman for the Moss Point Fire Department said the duplex was owned by E.J. McInnis and occupied by Calvin Montgomery Damages were estimated at-\$8,000-to-thestructure and \$1,000 to the contents. No injuries were reported.

Lt. Ernest Ory directed units 1, 3 and 7 in extinguishing the blaze.
